# Algorithm Design
& Custom Data Analysis

06/08/2025

Mantalys

Light, fast, high-performance AI solutions for scientific image analysis

Our image analysis specialists collaborate with domain experts across industries to design **light, high-performance image analysis solutions**

Innovative: state-of-the-art Deep Learning and Evolutionary Computation approaches

Tailored: one-on-one collaboration with our trusted image analysis specialists

Versatile: compatible with different data types and imaging modalities

Deployable: AI models are delivered ready to deploy - from microscopes to satellites

One-on-one Consultations → Algorithm Design and Validation → Flexible Solution Delivery

- Deployable Models
- Compiled Code
- Completed Analyses

Let's build your AI solution together **contact@mantalys.fr**
